|---------------|-------------------------------------------------------------|
| Date          | 02 July 2026                                                |
| Team ID       | SWTID-2026-4836                                             |
| Project Name  | OptiCrop: Smart Agricultural Production Optimization Engine |
| Maximum Marks | 1 Mark                                                      |

### Team Involvement in Demonstration:

This document records the active participation and responsibilities of each team member during the project demonstration. Each member contributed to the successful presentation of the project by explaining different modules and demonstrating the system's functionality.

| S.No | Team Member Name        | Role in Demo                   | Section Presented                               | Contribution Summary                                                                 | Participation (Active / Passive) |
|------|-------------------------|--------------------------------|-------------------------------------------------|--------------------------------------------------------------------------------------|----------------------------------|
| 1    | M N Venkata Narasimhulu | Team Leader & Presenter        | Project Introduction and Literature Survey      | Explained project objectives, agricultural problems, and literature survey findings. | Active                           |
| 2    | Khaja Hussain Nandyala  | Data & Model Presenter         | Dataset, Preprocessing and Logistic Regression  | Presented dataset loading, preprocessing, and model training process.                | Active                           |
| 3    | Mallela Sri Charan      | Backend Developer              | Flask Backend and Crop Prediction Demonstration | Demonstrated prediction workflow and backend integration.                            | Active                           |
| 4    | Gontumukkala Yeshwanth  | Frontend Presenter             | Home, About and FindYourCrop Pages              | Demonstrated user interface and application navigation.                              | Active                           |
| 5    | Mahesh Mahesh           | Testing & Evaluation Presenter | Model Evaluation and Performance Analysis       | Explained model accuracy, evaluation metrics, and testing results.                   | Active                           |

|   |             |                           |                                          |                                                                 |        |
|---|-------------|---------------------------|------------------------------------------|-----------------------------------------------------------------|--------|
| 6 | Entire Team | Question & Answer Session | Final Discussion and Future Enhancements | Answered evaluator questions and discussed future improvements. | Active |
|---|-------------|---------------------------|------------------------------------------|-----------------------------------------------------------------|--------|

#### Team Coordination Notes:

| Aspect                                 | Details                                                                                                                                               |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Team Leader / Coordinator              | M N Venkata Narasimhulu                                                                                                                               |
| Overall Team Coordination Rating (1-5) | 5                                                                                                                                                     |
| Any issues during demo                 | Minor audio disturbance occurred during the demo recording due to background noise from the surrounding environment.                                  |
| How issues were resolved               | The team re-recorded the affected sections in a quieter environment and used clear voice instructions to ensure the demonstration was understandable. |
